High School Report

Whitefield, New Hampshire.

1921

ANNUAL REPORT

OF THE

SCHOOL BOARD

OF

WHITEFIELD

HIGH SCHOOL DISTRICT

AUGUST 31, 1920

WHITEFIELD, N. H.
PROCTOR PRINTING COMPANY
1921

School Warrant.

The State of New Hampshire.

To the inhabitants of School District No. 3, in the town of Whitefield known as the Special High School District, qualified to vote in district affairs:

You are hereby notified to meet at the School House in said district on the 15th, day of April 1921, at 8.00 o'clock in the evening to act upon the following subjects:

1. To choose a Moderator for the coming year.
2. To choose a Clerk for the ensuing year.
3. To choose a member of the School board for the ensuing three years.
4. To choose a Treasurer for the ensuing year.
5. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.
6. To choose Agents, Auditors, Committees in relation to any subject embraced in this warrant.
7. To see if the District will vote to make any alterations in the report of the School Board recommending the amount of money required for the support of schools and payment of statutory obligations.
8. To see what sum of money the District will vote to raise and appropriate for the current fiscal year if the legislature does not pass the deficiency appropriation to meet the equalization fund.
9. To transact any other business that may lawfully come before the meeting.

Given under our hands at said Whitefield, this 14th, day of March 1921.

C. C. King,
A. J. Flanders,
W. H Young,
} School Board.

School Board Report.

Required annual report of School Board to district, stating amount of money needed for schools and statutory requirements

	Elementary Schools	High Schools
I. BUDGET (School Money)		
(a) For support of schools	$8,710.00	$9,150.00

	$9,935.91

Superintendent's Report.

To the Board of Education and Citizens of Whitefield High School District:

The Superintendent of Schools submits, herewith, his second annual report, being the tenth in the series.

TEACHERS. The most important factor in the school is the teacher. If we have good teachers we have good schools. If we have weak teachers we have poor schools. It was a trying year to recruit our teaching force. Fortunately, in the elementary schools only one change was necessary, that in the sixth grade, Miss Pierce being granted leave of absence for one year. This vacency was filled by Miss Marion Silsby of Concord, N. H. In the High School we were not so fortunate. We lost all our teachers except in the department of agriculture. For the most part these teachers found the salaries offered by other schools too attractive. In principle I think all agree that too frequent changes in the teaching staff are disastrous to the work of the schools. It is better economy to keep good teachers at an increased salary than to change teachers and engage less efficient ones at a smaller salary. We were fortunate in the extreme in securing excellent teachers to fill our vacancies And while we are not in competition with cities in our salary schedules, it will be necessary to revise our salary schedules upward again. If we are to retain teachers of worth we must at least pay salaries equal to the average for the state and salaries that compare favorably with other communities of this type.

SCHOOL PLANT. In pursuance of the vote of the District, the School Board installed a new No. 12 Kewanee boiler at a total cost of $1,775.00. While the winter has been a mild one it is evident that the heating plant is equal to any demand that may be made upon it. The attention of citizens is called to the following improvements that need early attention.

(1) Repairs to the roof.
(2) Painting of the building.
(3) Storm windows on two rooms on the exposed side of the building.

DISTRICT DEBT. Your attention is called to the statement of debt found elsewhere in this report. The total District debt is now $16,250. As directed by vote of the District $1,500 was paid on the debt, but through the practice of thestrictist economy on the part of the School Board, the interim indebtedness of $1,750.00 was also taken up. However, the money for the new boiler was raised on

District notes and so we have not made much headway. The District made no provisions for payment of interest for the current year on the new indebtedness so this has had to be provided for by the School Board out of its other revenues. It would seem to be good business policy to raise something this year to apply on our indebtedness.

PARENT-TEACHER ASSOCIATION. Since writing the annual report of a year ago, no meeting of this association has been held, though plans are in the making for a meeting in the near future. I sincerely hope that this association may have an early revival. Only as the home and school work together, only as parents and teachers become better acquainted and seek to undestand each other's problems better, are we able to minister fully to the social and educational needs of our children.

I wish more parents would make it a point to visit the schools while at work. It cheers and encourages the teachers and inspires them to better and more efficient service.

OUR NEW EDUCATIONAL LAW. On Jan. 7, the citizens of Whitefield had the opportunity of hearing Commissioner Butterfield discuss our New Educational Law. As he showed very clearly many things that have been accomplished in its first year of operation, all were of the opinion that the new law is fundamentally sound. It is not perfect, nor is anything created by the hand of man, In some sections we hear criticism of its financial provisions. The following figures will prove conclusively that Whitefield has every reason to be thankful. Of every $1,000 disbursed by the State, Whitefield (both districts) contributed but $2.96. Again, the Town of Whitefield paid into the State as follows:

State Tax			$1,289.08
Per capita tax	Town District	$170.00	
	Special District	586.00	756.00
Supt's. salary	Town District	$ 80.64	
	Special District	225.82	306.46
			$2,351.54

In return the town drew from the State	
Town District Rebate on H. S., tuitions and Qualified teachers	$723.00
Special District, Qualified teachers	652.00
Equalization fund, Town District	1,905.33
Equalization fund, Special District	2,792.77
Total receipts from State	$6,073.10
Total paid to State	2,351.54
Net cash profit	$3,721.56

So Whitefield profiited to the extent of $3,721.56 and received the services of the Superintendent gratis.

REPORTS. Your carefull attention is called to the reports of the District Officers, to the report of the school physican and to the report of Headmaster Gray. In Mr. Gray's report you will note that only six girls are registered in the Home Economics curriculum. It should be borne in mind that the girls in the Commerce curriculum are also required to elect these courses in Home Economics. When these are added there are 16 high school giris in these courses. Further, Miss Taggart, the teacher in charge of this department devotes exactly one-half of her time to teaching drawing in the grades and to teaching cooking and sewing in grades 6, 7 and 8. In these three grades there are 45 girls receiving instruction in the domestic arts. Similarly, Mr. Perkins, the agricutlural instructor spends nearly one-half of his time in instructing the boys of grades 6, 7 and 8 in sloyd and manual training. In this way 36 other boys are profitting by his instruction.

I believe that the schools have shonw a wholesome progress all along the line. The teachers have maintained a high type of professional spirit and have worked conscientiously and with the most complete harmony. For this they have gained the deepest gratitude of the superintendent and of the patrons of the schools. In conclusion I wish to express my very deep appreciation to the citizens of Whitefield for their sympathetic and helpful support of the schools, and to the loyalty and close cooperation of the School Board and tecahing force.

Respectfully submitted,

WESLEY H. DOUGLASS, Superintendent of Schools.

Whitefield, N. H., February 26, 1921.

Head Master's Report.

Whitefield, N. H., February 24, 1921.

To the Superintendent of Schools:

The aim of this report is to place before you in convenient form certain facts relative to the administration of the High School. I trust that you will find them clear.

At the beginning of the year the enrollment of the High School was 86. Of this number 46 girls and 40 were boys. The following table shows the division of the students by classes in the several departments:

Class	College	Commercial	Domestic Art	Agriculture	Total in Class
Seniors	14	3	2	1	20
Juniors	5	2	2	4	13
Sophomores	9	6	2	0	17
Freshmen	17	10	0	9	36

Up to date there have been five withdrawals: two were voluntary; one to join the army and the other to attend another school. The three other cases were caused by sickness or change in home conditions.

The work of the school as approved by the State Board of Education is progressing satsfactorily an all the teachers are very content and energetic in carrying on their duties.

The degree of attainment in scholarship is, on the average, good but it is the opinion of all the teachers that, in most cases, failure to meet requirements is due to the fact that those students do little or no home study. Parents should bear in mind that Whitefield High School is required to fit students for college in a thirty-six week year while the best schools in the neighboring states of Vermont and Massachusetts give thirty- eight and forty weeks respectfully. This, of course, requires more intensive application on the part of our students to do the same amount of work.

In line with our policy of bringing the community and school more closely together, citizens of Whitefield and others have kindly consented to address the school at various times and a larger number have agreed to accommodate us at a later date. It is hoped that this policy can be more fully developed so that many more will appear before the students thus assuring them of the warm interest that

Whitefield citizens have for their high school students. During the first half of the year the following people have spoken to them.

Mr. E. M. Bowker, on "Property and its Legal Aspects."
Mr. F. B. Lewis, on "Fire Prevent."
Mr. W. H. Douglass, on "The Students' Dividends."
Mr. E. W. Snow, on "Lawmaking."
Mr. Will Young, on "Forestry."
Mr. Guy Wilson, on "Southern Plantation Days."
Mr. Stout, Lecture on "Abraham Lincoln."

I am giving below a statement of the receipts and expenditures of the athletic association to date. You will note that no tax has been leved on students nor have any gifts been solicited. All of our revenue has been collected through the sale of season tickets at the reduced rate of one dollar for five games. This plan has necessitated the most strict economy in the management of the team but this is, in itself, a lesson of educational and disciplinary value to all.

Cash Received		Cash Paid	
Sale of Season Tickets	$172.50	Last years overdrawn acct.	$22.51
Guarantee from visited teams	125.00	Basket ball supplies	27.00
Gate receipts	154.42	Guarantees to visiting teams	125.00
		Cost of trips	188.49
		Repairs on Hall	2.50
		War Tax	24.44
		Rent of Town Hall	40.00
		Miscellaneous	5.75
		Total	$435.69
		Balance on hand	16.23
Total	$451.92		$451.92

The kindness of the Board of Selectmen in allowing us the use of the Town Hall for practice is deeply appreciated by Coach Perkins, the student body and myself. I also take this opportunity to express my thanks to you, the teachers, parents, friends and students for the cooperation given me in our effort to make the present school year a successful one at Whitefield High School.

Respectfully given,

FRED C. GRAY, Headmaster.

To the School Board of the Whitefield High School District:

I have the honor of submitting the following report of health condition of the pupils of the High School District. Two facts are of interest; first, the decrease in the number of cases of pulmonary disease over that of last year, and second, the continued prevalence of goiter which shows an increase over last year. The former is due to the removal form town of the children who, last year, showed evidence of pulmonary disease, and the healing of a number of cases. The latter is partly explained by the fact that the goiter report of this year includes all cases showing even very slight enlargement of the thyroid gland, while that of last year includes only those easily apparent on examination, and, for this reason, many are not of great significance. The general condition of the pupils this year particularly in the matter of defective teeth has demonstrated the great value to the children of the supervision, last year, by the school nurse, and they will be correspondingly handicapped by the lack of nurse this year.

Respectfully submitted,

Charles H. Parsons, School Physician.
